

Season's Greetings and Happy New Year from the Invest Salone Team!

This issue of our newsletter has stories on our work with the **textiles**, **tourism** and **agriculture** industries in Sierra Leone, as well as information about **investment opportunities**.

Read about Sierra Leone's first familiarisation trip for UK and European tour operators in five years. A case study on a green energy business expanding its services shows how PROSPER Salone can empower Sierra Leonean firms to attract international investors. PROSPER Salone is also behind the recent Acumen-Invest Salone Investment Readiness Bootcamp, covered in a story and video on the importance of structured pre-investment support for Sierra Leonean small and medium-sized enterprises.

Other highlights include a case study examining how public-private dialogue (PPD) helped broaden the discussion between the private sector and the government on proposed reforms to land legislation, as well as news on how structured PPD is helping to improve the duty waiver system, an orientation session for firms receiving support under Invest Salone's technical assistance facility, the next steps in the sustainable finance roadmap and an introduction to global marketing for Sierra Leone's fashion and textiles sector.

Make sure to **follow our social media channels** for more updates on Invest Salone's work in Sierra Leone.
